REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record, Treyz et al (6,526,335) show that it is well known to have a system (which could be automotive) and method with a processor and memory that provides voice messages from an operating system to a voice recognition application and an appropriate simulated manual event is provided from the voice recognition application to the operating system in response to the received message. (Figs. 7,27,70,84,96,Abstract). In regard to claims 1, 7, and 14, the prior art of record do not specifically show that an appropriate manual input event message is provided from the operating system to the voice recognition application in response to the simulated manual input event, wherein the voice recognition application initiates the performance of a task associated with the manual input event message.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
